Box Seats **\$2.00.**
Reserved Seat sale will be open at Sim's Drug Store Wednesday morning.

Cleveland's Cousin Married.
PITTSFIELD, Mass., June 13.—The marriage of Miss Bessie Cleveland, cousin of President Cleveland, to Dr. John A. Burke, of New York, took place last evening at the home of the groom's father, James Burke, at Taconic. Immediately after the ceremony Dr. and Mrs. Burke left on the east bound train.

It might perhaps be well to make the senate "scandal" committee one of the standing committees.

CAPITAL GROCERY.

IN THE SENATE.

John Sherman Makes a Speech Against Free Wool.

WASHINGTON, June 13.—Mr. Perkins of California took occasion at the opening of the session of the senate today to briefly defend the memory of the late Leland Stanford from the charge made by Representative Geary a few days ago that he founded the Stanford university out of a spirit of revenge and resentment because he had not been elected a trustee of the University of California.

When he was governor of California (Mr. Perkins) he had appointed Mr. Stanford a regent of the university, but at the request of the latter the legislature did not confirm the nomination. Dr. Stoneham would have also made Mr. Stanford a regent, but the honor was declined. A resolution offered by Mr. Morgan was passed calling on the secretary of the treasury for certain information:

First—What amount of gold coin has been received by the treasury department since November 1, 1893; second, how much was received from the sale of bonds and to what persons or banking institutions such bonds were sold; third, what outstanding obligations have been redeemed in gold since that date.

Mr. Hoar offered a resolution calling on the president to inform the senate what, if any, representations, written or oral, have been made to the government of the United States by the representatives of any foreign countries as to any contemplated retaliation on account of the proposed imposition of a discriminating duty on sugar against bounty-giving countries; also for the exclusion of our agricultural products from Germany or Guatemala, and also any information in his possession relative to any proposed retaliatory legislation by the Cortes of Spain on account of the abrogation of the reciprocity treaty under the tariff act of 1890.

There was no objection and the resolution was adopted.

On motion of Mr. Vilas, (Dem. Wis.), three bills providing one additional circuit judge each of the Seventh, Eighth and Ninth judicial districts were passed and then the tariff debate was resumed, the pending question being Mr. Peffer's amendment to restore 50 per cent of the duty on raw wool.

Mr. Sherman was recognized and made a vigorous speech against free wool.

WAR CLOUDS GATHER.

Morocco on the Point of a Civil War.

TANGIER, June 13.—The troubles anticipated as the result of the death of the sultan, Mulay Hassan, and the proclamation of his younger son, Abdul Aziz, as his successor seem likely to be as serious as first apprehended.

The soldiers of Abdul Aziz are raiding the villages in the vicinity of their camp, thereby causing a bitter feeling against them among the tribesmen of the vicinity.

In addition a French courier has been attacked and wounded, and the mail matter intended for the foreign residents in the interior which he was carrying, has been stolen. The British gunboat Bramble has arrived.

The governor of Tangier has issued a decree inviting the Kayables to come armed, to the religious festival, which is to be held this week. Though the above facts point to trouble of a serious nature, it is stated that generally the population of the interior of Morocco are in favor of the succession of Abdul Aziz to the sultanate.

Sultan Abdul Aziz left Rabat this afternoon for Fez, accompanied by a strong force of troops.

A GREAT HAILSTORM.

Visits the Northwest Accompanied by Cyclic Features.

LESS LEZURE, Minn., June 13.—A severe hail and wind storm, accompanied by Sibley and Nicollet counties. Many buildings were badly damaged. The hail storm was a mile and a half wide by ten miles long. All grain along the route was destroyed.

YOUNG AMERICA, Minn., June 13.—A severe wind storm of cyclonic features, accompanied by heavy hail, started in southwestern Carver county and swept through this village doing much damage in town and country.

The Missouri is Higher.
OMAHA, June 13.—The Missouri reached a stage within two feet of the danger line at midnight and since has been at a stand. As the indications from above favor a lower stage, the river is expected to begin to fall here by night and continue steadily.

LIGHT AHEAD.

The Coal Strike in Illinois is Now About Ended.

ST. LOUIS, June 13.—The coal operators of southern Illinois, including the Big Muddy, Consolidated, Madison and Mount Olive, are apparently well pleased with the result of the Columbus conference between the operators and the miners.

While the managers of these companies are aware that a schedule was only agreed upon for mines in Pennsylvania, Ohio and northern Illinois, they are quite positive that the scale adopted means that in less than a week all the mines will again be operated.

The consolidated Madison, Big Muddy and Mount Olive managers are so confident the strike has ended that they are now making preparations to resume operations of their mines. When operation will be resumed none of the operators care to say, but it is understood that the consolidated will make an attempt to resume work at Staunton on Saturday. If this be the case, on Monday morning work will be resumed at all of the southern Illinois mines.

A BLOW FOR BRECK.

General Basil Duke Will Take the Stump Against Him.

LEXINGTON, Ky., June 13.—The sensation in political circles here today is the published statement that Gen. Basil Duke, of Louisville, editor of the Southern Magazine, and brother-in-law and chief-of-staff of Gen. John Morgan, the famous confederate leader, has assured Major Henry Clay McDowell that he will stump the Ashland district for him and against Col. Breckinridge if the latter is renominated.

Major McDowell resides at Ashland, Henry Clay's estate, his wife being a granddaughter of Clay, and he has practically consented to be the Republican candidate if Breckinridge is nominated. Gen. Duke is a Democrat.

IMPORTED BLACK MEN.

Colored Men Shipped in By Frick to Run His Works.

UNIONTOWN, Pa., June 13.—A strong effort will be made by some of the coke strikers to have the scale committee to settle the strike by adopting the Frick scale at their meeting at Scottsdale tomorrow.

Many of the strike leaders have come to believe that this will eventually be the basis of the settlement, and are anxious to get the strike ended as soon as possible. No trouble has been reported in the region today.

Five carloads of negroes were brought here and distributed among the Frick works at Mount Pleasant. This company is making a stronger and more successful effort to resume work with imported men this week than at any time.

The Rauney company received another galling gun and placed it at Vanderbilt for the protection of the men at the Fort Hill works. Fifty strikers charged with riot and unlawful assemblage at Stickle Hollow are on trial today before Judge Mestergrat.

FREIGHT RATES.

Arguments on the Maximum Rates in Omaha Federal Court.

OMAHA, June 13.—The arguments on the Nebraska maximum freight bill were begun in the federal court this morning. The attorneys for the state and railroads are expected to consume several days in arguments.

Attorney General Hastings spoke today in favor of the federal court referring the whole matter back to the state authorities, claiming that it was not a matter for federal interference. The railroad people got the case before the United States Court on the theory that the reductions of the measures were so radical that all lines operating in Nebraska would be compelled to suspend in the event they were enforced. The law provides for a reduction of about 30 per cent in the present schedules.

Presidential Nominations.

WASHINGTON, June 13.—The president today sent the following nominations to the senate: To be consuls of the United States: John B. Gorham, of Georgia, at Matamoros, Mexico; John H. Miller, of Kentucky, at Port Stanley, Falkland Island.

Couldn't Take It With Him.

MONTREAL, Que., June 13.—Duncan McIntyre, Canadian director of the Grand Trunk railway, died today. His fortune amounts to \$5,000,000.

THE CREE SUN DANCE.

A Brutal Sport of the Indians Comes Before the Courts.

GREAT FALLS, Mont., June 12.—Judge Benton of the district court, has refused an injunction against interference with the Cree sun dance, by the governor and the sheriff on the ground that the petition asked protection against the Montana statute prohibiting Sabbath breaking.

Managers of the dance will take an appeal to the supreme court today.

TO PULL PULLMAN DOWN.

The Labor Union Claim That They Can Bankrupt Him.

CHICAGO, June 13.—The Pullman strike was discussed at the convention of the American Railway Union today, receiving the attention of various speakers. Vice President Howard said that people do not believe that labor unions can bankrupt a man. "But look at Daniel J. Mackey of Indiana. He was in charge of five railroads and now he has not a dollar. He refused to treat with labor unions much the same as Pullman has done and Pullman is not so near heaven that he can't be pulled down."

BACK FROM AFRICA.

Chanler, the Millionaire Explorer in New York Again.

NEW YORK, June 12.—Unheard of and unknown to those on the pier, an unassuming young gentleman with smooth sun dyed face marched down the gang way of the steamer Aller this morning. He was Wm. Astor Chanler, just returned home from a three years absence abroad, 22 months of which have been passed in the heart of Africa in regions never before penetrated by white men. After a warm greeting from two or three friends, Mr. Chanler was driven to the Knickerbocker club.

"I am in excellent health," said he, "with the exception of a sluggish liver, as the result of two years in Africa, which I propose to wash out at Carlsbad immediately. I have come home hurriedly for family reasons, and expect to remain a few days only."

While my expedition has not been entirely successful, owing to the desertions of my men and a plague resembling lockjaw that broke out among my camels and mules, I have gathered a large amount of scientific and geological data.

which will compose the report I propose to make to the New York Geographical society."

Wm. Astor Chanler, youngest of all explorers is only 28 years old, and was graduated from Harvard seven years ago. He is the son of the late John W. Chanler, and a great grand son of the late John Jacob Astor, from whom he inherited a large fortune. He is a member of many New York and of many foreign societies.

This is his second expedition to Africa. In 1889 he made a big shooting trip to Mashonaland, and was the first white man to go completely around Mount Kilimanjaro. When asked if his passion had yet been spent, he laughingly shrugged his shoulders and said: "Why, no. I am off to Carlsbad in a few days."

"But I mean for African travel?"
"I cannot say. For the present yes, but when the fit seizes me again I suppose I shall have to go."

MIGHTY CLOUDBURST.

Canandaigua, N. Y., suffers From Too Big a Rainfall.

CANANDAIGUA, N. Y., June 13.—A terrific cloudburst occurred at this place and vicinity last night, doing irreparable damage. The storm, which was accompanied by fierce thunder and lightning, struck here about 8 o'clock, and in a short time flooded the streets and gutters and choked the sewers and streams.

Cellars all over the town are flooded, and in the low lands pedestrians without high rubber boots was impossible. Reports come in from all over the vicinity to the effect that this storm was the heaviest and most devastating of any so far before seen. The lake has returned to high water mark, and the vineyards in many places along the shores are washed out and the vines leveled.

Big Loss of Lumber.

REED CITY, Mich., June 13.—Holliday's mill, near Ashton, together with two houses, a barn and 3,000,000 feet of lumber burned last night. Seven hundred thousand feet of logs belonging to Peter Carlson were also destroyed. The loss aggregates \$74,000, with no insurance.

There are now but two vacant store rooms in the block between Norris and Laurent streets. The number was much larger in the winter.
